The Mortality of Advertising

THE waste basket is the grave of millions of dollars worth of advertising every year. Keep your advertising out of the waste basket by using mediums that are not thrown away. The City Directory is on the job 365 days in the year and no level headed man will think of the waste basket and the City Directory at the same time.

About City Directory Circulation

T*he true value* of advertising circulation is *circulation consulted.*

T*o be exact* by actual survey in twenty-four average American cities by actual count each city directory averaged three and one-half consultations for each business day.

T*o be conservative* we will eliminate the sixty Sundays and Holidays when no tests were made.

F*or every thousand directories* sold there will be an average of three and one-half daily consultations for each book for *three hundred and five days,* therefore—

"What You Should Know About Your City"

" The helpful kind of patriotism is the kind that grows out of a knowledge of one's town, of her growth, her people, her property, her government and her needs. This knowledge develops, first, an intelligent interest: then, a sympathy: then a reasonable affection, a wise and temperate jealousy for her good name and a wish that she may prosper and grow more beautiful: and, finally, a desire to help her to become greater and finer, a bright and clean workshop and a home for the best of men and women."—John Cotton Dana.

The Mortality of Advertising

THE waste basket is the grave of millions of dollars worth of advertising every year. Keep your advertising out of the waste basket by using mediums that are not thrown away. The City Directory is on the job 365 days in the year and no level headed man will think of the waste basket and the City Directory at the same time.
